7 May 2019

**Mission Statement:**

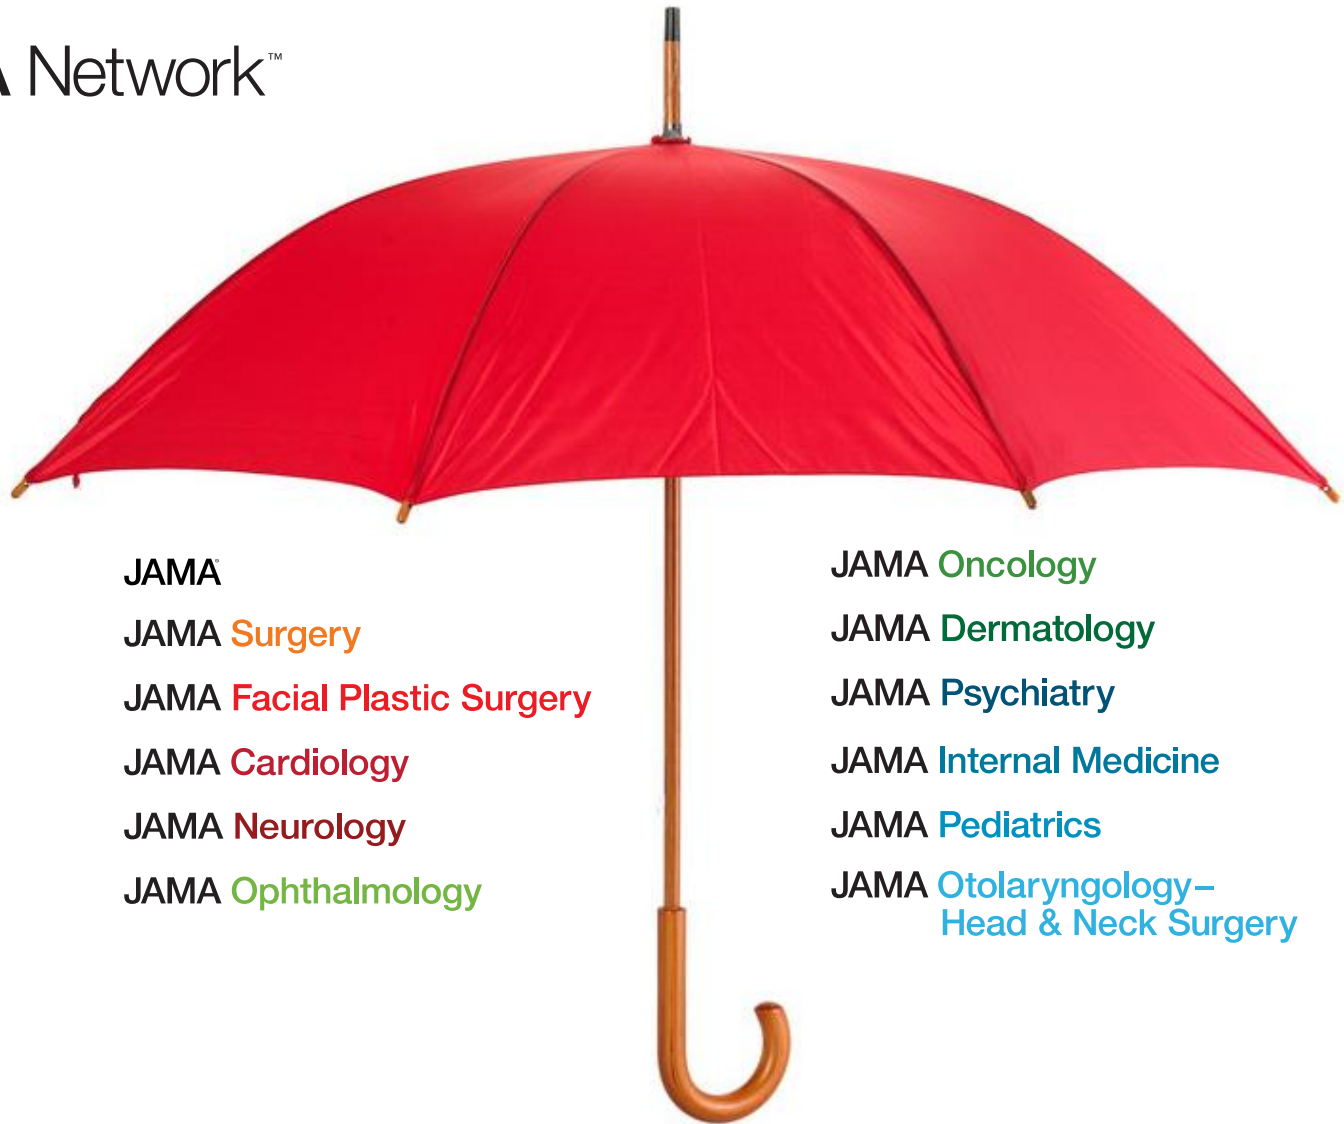

To promote the art and science of medicine and the betterment of public health.

The flagship JAMA® Journal and the 11 JAMA Network specialty journals provide users with the most current original research, reviews, opinions, and more to make it easy to apply the most up-to-date medical information.

**JAMA Network™**

JAMA

JAMA **Surgery**

JAMA **Facial Plastic Surgery**

JAMA **Cardiology**

JAMA **Neurology**

JAMA **Ophthalmology**

JAMA **Oncology**

JAMA **Dermatology**

JAMA **Psychiatry**

JAMA **Internal Medicine**

JAMA **Pediatrics**

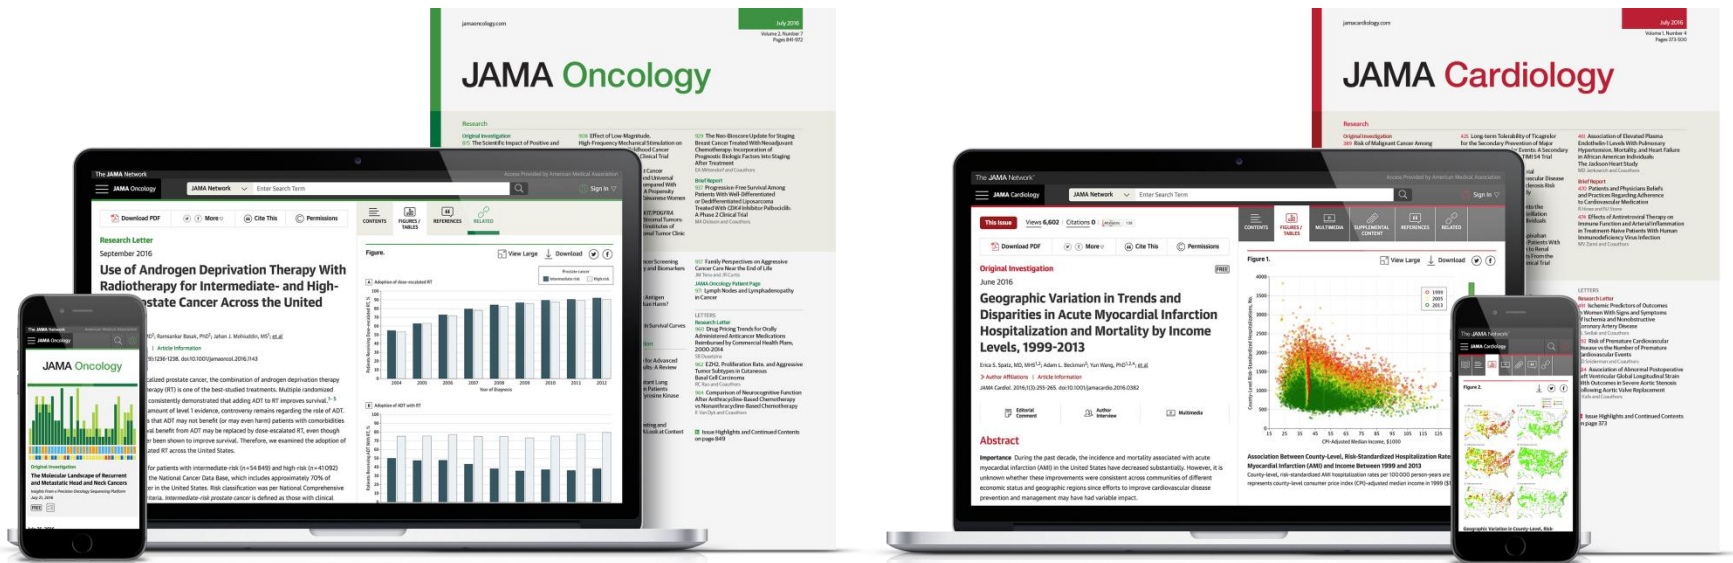

JAMA **Otolaryngology–  
Head & Neck Surgery**

# JAMA<sup>®</sup>

- Content published weekly and in conjunction with important events and scientific conferences
- Published since 1883
- Impact Factor 47.7

# The Newest Specialty Journals

---

# JAMA<sup>®</sup> E-packages

ePackage includes the JAMA + # of journals customer can select.

For instance JAMA +3 = JAMA + 3 journals of the specialized journal list.

The AMA's tiered site license pricing structure is designed to be flexible and fair. Multi-campus universities and large hospital systems will find pricing options to fit their unique configurations and needs, while small schools and organizations will benefit from price tiers created specifically for their limited resources.

# Site License Subscriptions

---

Site licenses provide the widest possible access, with seamless access when logged in to the institution's network— both onsite or remotely.

- Include **perpetual access** to licensed content
- Allows **simultaneous, seamless access** to leading medical information
- Includes online-only supplements and **Online First articles**
- **Custom solutions** available for each organization
- Institutions may register an **unlimited number of IP addresses**
- The AMA publications support **access via Athens and Shibboleth**
- **Print copies** of any title are available at a discounted rate (**DDP**) with a site license purchase

# JAMA Network Content Focus

## 1. Research

- Original Investigations
- Case Reports

## 2. Opinion

- Viewpoint
- Editorial
- Commentary

## 3. Clinical Review & Education

- Review Articles
- Continuing Medical Education
- Clinical Challenge
- Patient Information
